REASON FOR ALLOWANCE

Drawings

1. The drawings were received on 10/14/2004. These drawings are accepted.

Allowable Subject Matter

2. Claims 1, 2, 5-7, 9, 10 and 13-15 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach a system for mobile communication for base station transmits only a first radio frequency when a number of the mobile stations belonging to the first cell is smaller than a given threshold and transmits the second frequency in addition to the first radio frequency when the number exceeds the threshold.

Otsuka teaches a base station for communicating with mobile stations by using a plurality of radio frequency and a base station controller for switching from a first frequency to a second frequency. However, Otsuka failed to teach the base station transmits only a first radio frequency when a number of the mobile stations belonging to the first cell is smaller than a given threshold and transmits the second frequency in addition to the first radio frequency when the number exceeds the threshold.

Therefore, claims 1, 2, 5-7, 9, 10 and 13-15 are allowed.
